(54) Title: REMOTE CONTROL

(57) Abstract: The present invention relates to a method for remote supervision of an automatic milking system 1 adapted to handle animals and comprising at least one milking station 2 and computer means. The method in accordance with the invention includes the steps of creating web-documents containing information about the milking station 2 and/or animals obtained from the computer means, establishing a connection between the automatic milking system 1 and a communication unit 7, 8, and transmitting created web-documents to the communication unit 7, 8. The invention also relates to such a system.
